Subject: Microsoft Settlement

The settlement is fair and just; however there are concerns that arise from this action.

- 1) If agreed upon, what safeguards would be in place to prevent a repeat of this case under another administration or even a different market.
- 2) Would could be the long term solution not to just Microsoft, but others in the information industry?
- 3) Would this stop the process or would it just keep on going every time a judge feels differently.
